

A 10x10 grayscale grid where each cell's intensity represents a value from 0.0 (black) to 1.0 (white). The grid displays a noisy, pixelated version of the letter 'E'. The 'E' is formed by dark gray and black pixels, while the background is composed of light gray and white pixels. The shape is roughly centered, with a horizontal bar across the middle and a vertical stem on the right side. The edges are irregular and noisy, with many small white and light gray pixels scattered around the main structure.
